

HDPE LINER LITE

INDUSTRIALPLASTICS.COM.AU

HDPE LINER LITE

Liner Lite is used to create an impermeable barrier on the ground of smaller projects. Its design helps customers complete detailed projects like pond and pontoon lining as well as weather protection. Lite's double-sided tape installation method is simple and customers save time and money on transport by purchasing lighter rolls.

APPLICATIONS

Landscape Ponds

Agricultural

Manure lagoons

Pontoon Construction

Industrial Plastics offer High Density Polyethylene (HDPE) Liner Lite as an affordable alternative to the larger HDPE Liner product. Stocked throughout Australia we are able to serve our customers when they need a quick and lasting solution.

MATERIAL SPECIFICATION:

- **Thickness:** 0.5mm or 1.0mm
- **Width:** 5m
- **Length:** 10m
- **Material:** HDPE
- **Colour:** Black

If your required specification is not detailed above please contact one of our technical sales team who will be happy to handle your enquiry.

WHY USE HDPE LINER LITE:

- Good flexibility for easy installation
- Operational temperature range: -70°C ~ 110°C
- Corrosion-resistant
- Excellent environmental stress cracking resistance properties
- High tensile strength and elongation
