## HDPE Liner For Pontoon Manufacturer

### Summary

Industrial Plastics supply geomembrane liner to pontoon manufacturers as a protective layer around their pontoon blocks/piles, providing protection against marine growth. The product is better than traditional wood as it does not decay, giving it a longer service life with little to no maintenance. The easy to install material is great for piling, pontoon and barge wrapping.

### Product Description

HDPE Liner, Black, 5.8M W x 50M L x 1.5mm T

### Industry

Marine (Pontoon Manufacturer)

### Location

Gold Coast, Queensland
